

Who Will Benefit From The Neural Zoomer?

The **Neural Zoomer** offers a clear, clinically meaningful view of how immune activity may be influencing your brain and nervous system.

By measuring antibodies tied to neuroinflammation, brain and nerve structures, and blood-brain barrier balance, it brings structure to complex neurological symptoms and supports more informed, personalized care for long-term brain clarity and resilience.

About Vibrant Wellness

Vibrant Wellness is a leading CAP-accredited biotech company based in Santa Clara, CA. We deliver life-transforming lab testing that enables health and wellness providers to discover the root of patient health issues.

We're at the forefront of modern medicine and research, providing personalized health analytics using cutting-edge, high-quality technology. We believe that anyone can achieve better health and vibrant longevity through individualized solutions based on testing—not guessing.

Regulatory Disclaimer

Please note the information provided by Vibrant Wellness is intended solely for informational purposes to help inform lifestyle choices aimed at potential risk mitigation. The information is not intended to be used by the patient for any diagnostic purpose and is not a substitute for medical advice by a healthcare practitioner. Please consult a licensed healthcare practitioner for any questions regarding diagnosis, prevention, or treatment of any disease or health assessment. The tests were developed and their performance characteristics determined by Vibrant America and Vibrant Genomics, laboratories certified under the Clinical Laboratory Improvement Amendments (CLIA) and accredited by the College of American Pathologists (CAP). The tests have not been cleared or approved by U.S. Food and Drug Administration (FDA). For information on tests available for use in New York State under New York State Department of Health (NYSDOH) requirements, please visit the Vibrant website.

Neural Zoomer

Blood

DBS

Burning

Tingling

Numbness

GM2

Revised 02/27/2026

Symptoms of Neural Issues

Symptoms Include:

- Unexplained Brain Fog
- Memory Changes
- Mood Variability
- Numbness
- Tingling
- Burning Sensations
- Muscle Weakness
- Balance Changes
- Dizziness
- Light Sensitivity
- Headaches
- Flare-And-Remit Symptoms

Why Is This Test Important?

- Measures immune responses to MOG, MAG, MBP, PLP, Tubulin, and Neurofascin, key proteins that support nerve insulation.
- Assesses antibodies to cerebellar proteins, Purkinje cells, amyloid and tau peptides, and neurotransmitter-related receptors.
- Evaluates GFAP, S100B, microglia-related proteins, and GRP78—markers connected to barrier stability.
- Measures antibodies to Aquaporin-4, Recoverin, Neuron-specific Enolase, and related proteins.

The Neural Zoomer Tests For:

- Demyelination
- Brain Autoimmunity
- Blood–Brain Barrier Integrity
- Optical & Autonomic Nervous System
- Peripheral Neuropathy
- Neuromuscular Disorders
- Infection-Associated Immune Markers
- Brain Inflammation

The Vibrant Wellness Advantage

- ✓ **Simple testing with robust results.** Perform the Neural Zoomer in the comfort of your home, or work with your provider to find a convenient testing center.
- ✓ **Unparalleled specificity and sensitivity.** Our proprietary technology detects:
 - Critical biomarkers like NMDA, AMPA and GABA
- ✓ **Validated and accredited.** Science-backed testing and analysis based on rigorous, ongoing research by clinical experts.
